BDD Output Result Report

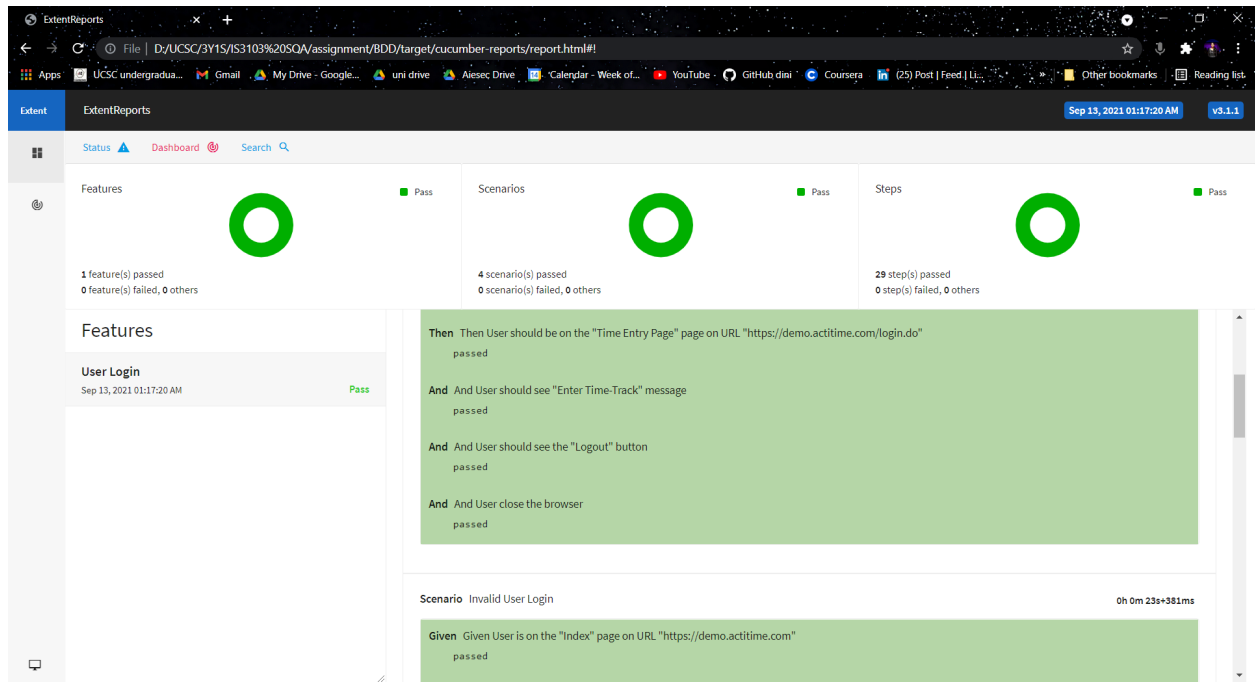

M.D.Sutharshan | 2018IS083

Index Number : 18020836

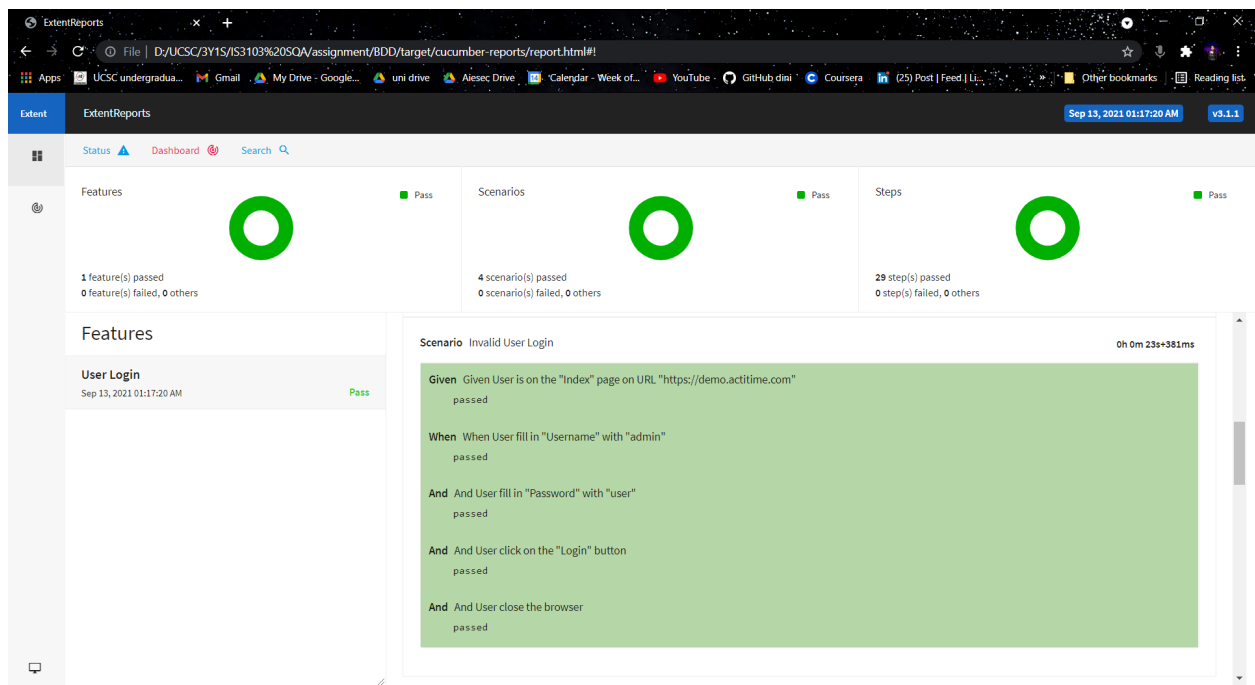

This report contains the screenshots of the resulting report obtained on creating test suites using BDD Cucumber for the provided scenario, **Validating Login Functionality**.

01.

03. Invalid login

02. Multiple User login

This screenshot shows the ExtentReports dashboard for a test run on September 13, 2021, at 01:17:20 AM. The dashboard includes a top navigation bar with 'Status', 'Dashboard', and 'Search' links. Below this, there are three summary cards: 'Features' (1 passed, 0 failed), 'Scenarios' (4 passed, 0 failed), and 'Steps' (29 passed, 0 failed). The main content area is divided into two sections. The left section, titled 'Features', shows a single feature 'User Login' which passed at 01:17:20 AM. The right section, titled 'ScenarioOutline Multiple User Login', displays a detailed view of the 'Multiple User Login' scenario. The scenario is outlined with a green background and includes the following steps: 'Given' (User on 'Index' page), 'When' (User fills 'Username' with 'admin'), 'And' (User fills 'Password' with 'manager'), 'And' (User clicks 'Login' button), and 'Then' (User is on 'Time Entry Page'). All steps are marked as 'passed'.
